PAY-AS-YOU-GO CONDITION MONITORING

The flexible option for challenging times

office@diagnosticsolutions.co.uk
www.diagnosticsolutions.co.uk

The last 18 months have created a challenging environment for UK manufacturing, and many Maintenance Managers have been facing the same dilemma:

“I want to protect my assets but do I commit to a fixed term PdM contract when production demands are unpredictable?”

Despite official figures showing we are “out of recession”, those of us on the front line are aware that the repercussions of such a downturn take some time to correct.

With this in mind, Diagnostic Solutions has come up with a simple, commitment-free and cost effective solution to this dilemma:

PAY-AS-YOU-GO Condition Monitoring

- A flat rate of **£300*** for a site survey of up to 30 assets including full diagnostic report with maintenance recommendations.
- Additional assets charged at £10 per asset, as and when required.
- Additional option to have your own vibration checker on site, and access to SmarTrend web-based CM software for just £200 per month.

That’s it: simple! There is no obligation to have a survey every month, or even to have all your assets monitored during one visit.

This solution is great if you have some assets that require monthly monitoring and others that are less critical and would benefit from a quarterly check. Just add and remove assets from the survey as required, and pay only for what you need.

About Diagnostic Solutions

Diagnostic Solutions has been a leading supplier of Condition Monitoring products and services to some of the largest names in UK manufacturing since 1998. We pride ourselves on providing the best possible service through our expertise and engagement with the latest innovations in technology.

For further details or to arrange a site survey, please telephone 01244 571411

* A mileage supplement may be charged for sites located more than 100 miles from Chester.
